No 45348

**APPLICATION FOR PERMIT
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA**

Date of filing in State Engineer's Office. FEB 22 1982

Returned to applicant for correction. MAY 4 1982

Corrected application filed MAY 20 1982

Map filed MAY 20 1982

United States of America
The applicant United States Department of Agriculture, Forest Service

P. O. Box 8465, of South Lake Tahoe,
Street and No. or P.O. Box No. City or Town

California 95731, hereby makeS application for permission to appropriate the public
State and Zip Code No.
waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

1. The source of the proposed appropriation is Underground source
Name of stream, lake, spring, underground or other source
South Fork Daggett Creek Watershed

2. The amount of water applied for is 0.5 second-feet
One second-foot equals 448.83 gals. per min.
(a) If stored in reservoir give number of acre-feet N/A

3. The water to be used for Commercial snowpack augmentation
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:
(a) Irrigation, state number of acres to be irrigated: N/A
(b) Stockwater, state number and kinds of animals to be watered: N/A
(c) Other use (describe fully under "No. 12. Remarks") Snowmaking and Water Quality Improvement
(d) Power:

(1) Horsepower developed N/A

(2) Point of return of water to stream N/A

5. The water is to be diverted from its source at the following point: SW $\frac{1}{4}$ of SE $\frac{1}{4}$ Section 30 T13N R19E.
Describe as being within a 40-acre subdivision of public
Said point bears south 35 degrees 2 minutes 20 seconds east, 5,216 feet from
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.
the Northwest corner of said section 30 T13N R19E.

6. Place of use Portions of SE $\frac{1}{4}$ of Section 30 T13N R19E, MDB&M, outside of the
Describe by legal subdivision. If on unsurveyed land, it should be so stated.
Lake Tahoe Basin.

7. Use will begin about June 15 and end about April 15, of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Drilled well, with pump and motor, to one
State manner in which water is to be diverted, i.e. diversion structure, ditches and
million gallon reservoir tank, to six inch iron pipe system, to hydrants every
flumes, drilled well with pump and motor, etc. one hundred feet for 3,250 feet total distance.

9. Estimated cost of works \$750,000

10. Estimated time required to construct works.....Two years (by fall 1984)
If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use.....Immediately upon completion of project.

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

Annual consumptive use to be as follows: Summer season use from June 15 to August 20 at a rate of 86,935 gallons per day. Use will be for slope stabilization and water quality improvement. Winter season use will be approximately 20% of the period from November 15 to April 15 (weather and needs dictate) at a rate of 308,000 gallons per day. Use will be for snowpack augmentation through use of a snowmaking system.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The summer period of use of the water herein granted will be limited to 40,000 gallons per day for the stabilization of two acres for approximately two seasons until a total of 12 acres has been stabilized. Upon stabilization of the total 12 acres, the slope stabilization right granted hereunder will be terminated and no further use of water for slope stabilization will be authorized. (See letter from USFS dated February 4, 1983, filed (Cont.) The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and

not to exceed.....0.5.....cubic feet per second, but not to exceed 151.77 acre-feet seasonally.

Work must be prosecuted with reasonable diligence and be completed on or before.....July 14, 1984

Proof of completion of work shall be filed before.....August 14, 1984

Application of water to beneficial use shall be made on or before.....July 14, 1990

Proof of the application of water to beneficial use shall be filed on or before.....August 14, 1990

Map in support of proof of beneficial use shall be filed on or before.....August 14, 1990

Completion of work filed.....OCT 18 1985.....IN TESTIMONY WHEREOF, I.....PETER G. MORROS.....

Proof of beneficial use filed.....
my office, this.....14th.....day of.....JULY.....
